<tr>
<td>Estimate Worksheet</td>
<td>Build an Estimate. This button also gives you access to estimate settings such as hourly labor rates, service writer names and shop jobs.</td>
</tr>
<tr>
<td>New Car</td>
<td>Choose a new vehicle. The Select a Vehicle screen will appear and allow you to clear out your current vehicle and make another selection.</td>
</tr>
<tr>
<td>Previous Car</td>
<td>Choose from a list of vehicles you have looked up most recently.</td>
</tr>
<tr>
<td>Image+Text™ Display</td>
<td>Return to ALLDATA Repair’s default split-screen mode with text on the left and the image on the right.</td>
</tr>
</tbody>
</table>
Text Only
View article in text only. (No image will display.)

Image Only
Display the selected image. (No text will display.)

Print
Display the print dialog box. You can choose options such as text only, image only or text and image.

Annotate
Attach notes to, and detach notes from, specific articles and images.

Context Sensitive Help
Display help information for the current page displayed.

A₂Z™ Component Search
Search for a system, component or diagnostic trouble code by name. ALLDATA Repair displays a “Search For” field as part of the A₂Z component search dialog box. Type a system or component name into this field and possible matches will be displayed.

Fax
If your computer has a fax modem and fax software, you can fax our Resource Library by clicking the Fax button.

NOTE: The following tools are available only if viewing an image.

Pan Mode
The Pan Mode button enables navigation through magnified images. If images can be panned, the pan cursor displays as solid directional arrows in the image view window. To zoom in on an image, click the zoom button and click to zoom in.

Click to zoom out.

Fit to Window
Adjust the image size so that it fits in the current image window.

Fit to Width
Display the image using the maximum width available in the current window.

Full Size
Display the image at maximum (100%) size.

NOTE: If your computer does not have a fax modem, click the Fax button, print the fax form and fax it to ALLDATA at 800-684-4241.
Navigating ALLDATA® Repair

ALLDATA Repair uses consistent information categories for all vehicles. Diagnosis and Repair, Maintenance and Parts and Labor categories all use a standard structure, whether you are viewing information at a system level or at a sub-system/component level.

By first selecting a vehicle’s year, make, model and engine, then choosing a system and sub-system/component, you have effectively forged a “path” to the information you requested. Refer to the path example below:

1. Diagnosis and Repair
2. Powertrain Management
3. Locations
4. Testing and Inspection Procedures

NOTE: This example is for a 1992 Chevrolet® Suburban® 4WD. Actual components and systems may differ by vehicle.
ALLDATA Repair includes a Help feature for access to information in each area of ALLDATA Repair. Try using Help before contacting Customer Service; you may save time.

1 Select Help above the Toolbar to display a menu of Help options.

2 Select one of the following Help options displayed:

- **Where Am I?** Provides information such as the disc being accessed, the vehicle selected, the ALLDATA Repair version and the path to your current selection. This information is very useful when contacting Customer Service for help.

- **Contents** Displays a Table of Contents window that provides a list of each section or chapter within the Help files. Click on one of the books to view the pages or contents of the section. Then, click a page to view the Help information on that page.

- **Search for Help On...** Displays the Search Tab.

- **How to Contact Customer Service** Displays important information pertaining to ALLDATA’s Customer Support Services.

- **Tip of the Day...** Provides helpful hints about using ALLDATA Repair. Each time you select this feature, a different tip is displayed.

- **What's New?** Describes new products, features and/or enhancements.

- **About ALLDATA...** Displays ALLDATA’s copyright information and Terms and Conditions.

3 Click an Option to select it.
Call Customer Services or contact your Account Manager at 800-859-3282 to ask about these additional options:

**ALLDATA® Repair SM** (Online Version) provides the same information as our disc product with the convenience of Internet access. Added benefits include maintenance tables, daily TSB updates and enhanced image viewing.

**2+ Key Program** allows you to utilize one set of discs on two or more computers in one location.

**Service Advisor™** is tailored for service writers and includes factory Technical Service Bulletin titles, maintenance schedules, a labor guide, OEM parts and prices, technical management support and estimating software.

**ALLDATA® Manage SM** is an integrated, easy-to-use shop management system that streamlines your current paper processes. Generate estimates, repair orders and invoices quickly and professionally.

**ALLDATA Emissions CD** provides early-model vehicle emissions information on a CD, integrating with the ALLDATA system to provide hassle-free access to the emissions information you need for 1966 to present-year vehicles.

**ALLDATA MarketSM** is a toolbox of effortless, web-based services to help you attract new and repeat business into your service bays.

**ALLDATA CollisionSM** is your single source for fast and reliable OEM collision repair information (Available Online Only).

---

**ADDITIONAL PRODUCTS**

**Live Product Training**

Live, interactive product training for you and your employees is available in the ALLDATA Training Department’s virtual classroom. Qualified professionals will train you to effectively use ALLDATA Manage, ALLDATA Repair® and ALLDATA Market.

Learn how to take advantage of every feature with online training from ALLDATA, and start getting a quick return on your investment in all your ALLDATA products. To schedule your training, contact the Training Department directly at 800-684-6840 or 800-829-8727, ext. 4416.

**Certified ALLDATA Information Specialist Program (CAIS)**

Distinguish your shop from the competition by becoming a Certified ALLDATA Information Shop. CAIS certification testing ensures that your technicians can get the full benefit of all your ALLDATA products, and that you are committed to keeping your shop on the cutting edge of automotive repair technology. CAIS tests are located under the Toolbox pull-down menu at the top of the page within the product. For more information, visit www.alldata.com/cais.

**Customer Support**

Knowledgeable Customer Support Representatives are ready to assist you with your system and navigation questions, six days a week. Contact us Monday - Friday, 5:30 am - 5:00 pm (PST) and Saturday, 6:00 am - 2:30 pm (PST). Call 800-859-3282 or email us at support@alldata.com.

**Data and Library Resource Center**

Can’t find what you’re looking for? Contact our expert library support staff for fast, accurate faxed-back responses to your questions.

Just use the Fax button on the menu bar. All your shop and vehicle information is automatically entered on the Fax Request Form. Type the information you need in the Data box, and click Print/Fax Request.

**NOTE:** If your computer does not have a fax modem, click the Fax button, complete and print the fax form. Then fax it to ALLDATA at 800-684-4241. Unable to fax? Call us at 800-859-3282.
